import_cpd	2
new_cpd	3
title_to_file	3
yaml_to_tibble	4

Index	5
--------------	----------

export_benefit_report *export benefit report*

Description

export benefit report

Usage

```
export_benefit_report(  
  path = ".",  
  records_path = "cpd-records",  
  report_year = year(today())  
)
```

Arguments

path	Location for saving the report
records_path	Path to the cpd-records
report_year	The year for the benefit report

import_cpd *import_cpd*

Description

import_cpd

Usage

```
import_cpd(path = "cpd-records")
```

Arguments

path	Path to CPD records
------	---------------------

Value

a [tibble][tibble::tibble-package]

new_cpd	<i>import_cpd</i>
---------	-------------------

Description

import_cpd

Usage

```
new_cpd(
  title = "",
  type = "other",
  date = today(),
  learning_hours = 0,
  path = "cpd-records",
  overwrite = FALSE
)
```

Arguments

title	Title for new CPD record
type	Type of new CPD record, can be one of "work", "professional", "formal", "self" or "other"
